

# UNCONSCIOUS INCOMPETENCE

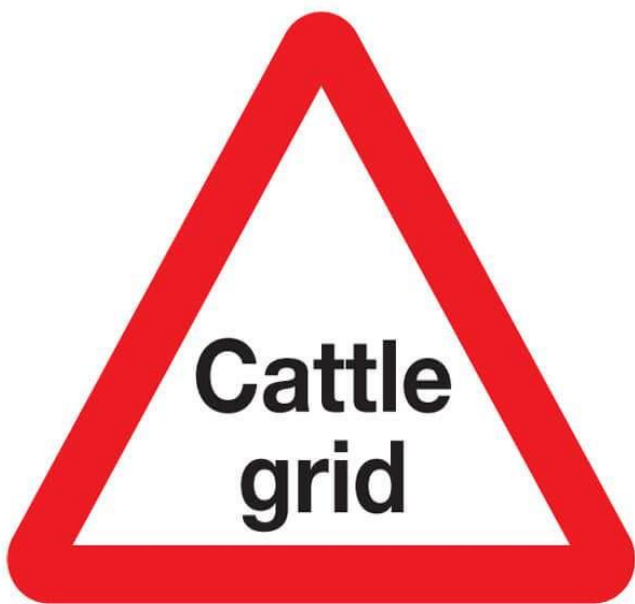

**You have no idea  
what is ahead,  
due to reduced  
visibility.**

**In NVR terms, you  
may have heard of  
it, but you do not  
know what is  
involved.**

**You do not know  
what it is that you  
do not know!**

**CONSCIOUS**  
**INCOMPETENCE**

**When faced with a hazard, what are you going to do?**

**In NVR terms, you have learnt about the principles of NVR, but have no idea how to implement them.**

**You now know what it is that you do not know.**

**CONSCIOUS**  
**COMPETENCE**

**When faced with a bumpy road, you take the bumps very carefully.**

**In NVR terms, you have learnt all the principals and how to implement them. But they do not come naturally.**

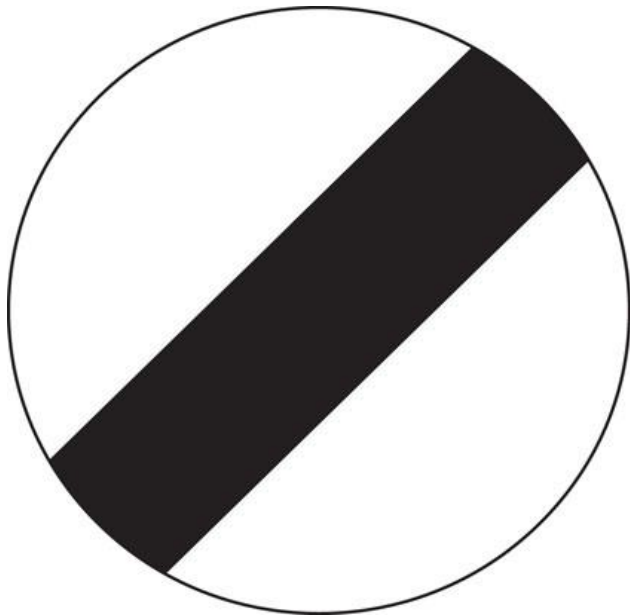

**Now you know what to do and how you are going to do it but, you have to think through every move.**

**UNCONSCIOUS**  
**COMPETENCE**

**You have clear  
straight road  
ahead.**

**In NVR terms, you  
use all the  
principals at the  
appropriate time  
in the most  
appropriate way.**

**Now you know  
what you are  
doing it comes as  
second nature.  
You hardly have  
to think about it.**
